FRAGARIA NURSERIES

Pulaski, Oswego County, N. Y.

The Strawberry Man of Pulaski, N. Y.

The above illustration was made by the Central City Engraving Company of Syracuse, N. Y. The idea originated with our L. J. Farmer, who told Mr. Timmerman about it and Mr. Timmerman had one of their artists work out the design. We never knew the name of the party who actually did the work, but Mr. Timmerman told us that it took quite a while to work it out and it did not pay them, as they did not charge us near what it cost to make. It is sometimes amusing how new ideas strike different people. We use this design on our shipping tags and we have seen people, including many traveling salesmen, stand around the trucks loaded with our shipments and smile and make remarks about "The Strawberry Man". One old lady customer wrote us that she would not trade any more with a man who looked so awful. We have not been using this on our tags for the past few years, but we will try and fill all orders from this list using these tags.

AVAIL YOURSELVES OF OUR SERVICE

While we would like to handle the entire Small Fruit orders of any nurseryman or seedsman, and send them direct to their customers, we will be glad to take your tags and make shipments of anything that you do not specialize in, whether you are a steady customer of ours or not. We pride ourselves that we have the best system of shipping strawberry and other small fruits that has ever been devised. We have had great experience. When the fall bearing strawberry came on the market, we filled the entire output of the numerous companies at Newark, N. Y. Later we handled the entire strawberry business of one of the largest seedsmen in the United States. We continue to fill orders for several firms, who do not specialize in berry plants, but who receive occasional orders. Every shipment is protected with cardboard, so the contents are never crushed in transit. We have received hundreds of letters claiming our packing is "The best in the World". We can make shipments any month of the year. Write us about this.

LIST OF NAMES FOR SALE, Between 900 and 1000 names of all prominent seedsmen and nurserymen, all over the United States. Price, nicely typewritten, \$10.00.

Over 25,000 names of retail mail customers, all classified into states and post offices (our own down to date list) neatly typewritten, \$20.00 per 1,000. This list has been secured by the expenditure of thousands and thousands of dollars in advertising in the Horticultural, Agricultural and Sunday Garden pages of leading daily papers. Lists will not be sold to two or more in the same business.
